How the Debate Tournament Will Work

In this exciting corporate debate tournament, each sponsor will put together a debate team of 2-4 representatives from the sponsoring organization. We have the capacity for up to 16 debate teams.

There will be two rounds of debate in this tournament. In the preliminary round, teams will be placed into virtual breakout debate rooms with 3-4 teams. A debate topic will be shared a week prior to the tournament, and each team will be assigned a position they must advocate for. The debate round will be adjudicated by panels of BDL debaters and VIP judges, including Federal District Court Judges and other community leaders. Winners from the first round will compete in one large final round to claim the championship.

Winners will be chosen based primarily on “which team was the most persuasive” although points will also be awarded for cleverness and wit.

THANK YOU TO OUR HOST
